

*** HOW TO USE THIS GUIDE**

The compatibilities shown are for single engine applications. If you have a twin engine aircraft you must double the wattage shown for the selected heater. This is the total wattage for the preheaters, and you must add the wattage of any additional devices you want to control such as a Cabin Heater, Battery Heater or other electrical equipment and confirm that the total for everything does not exceed the maximum allowable wattage for the FST Switch you are considering. To aid your selection, the maximum wattages for FST switches are shown below.

U-Phone-IT 1000 Watts REGAL PRO 1700 Watts REGAL PRO-MAX 2400 Watts

FST REMOTE SWITCH SELECTION GUIDE BY PRE-HEATER MANUFACTURER

Manufacturer	Engine(s)	Preheater Model/Type	Wattage @ 115 V	Compatible FST Switches
AEROTHERM				
AEROTHERM Pre-Heaters are Electric, forced air devices	Works with almost any enclosed aircraft engine	DEUCE	800/1600	REGAL PRO & PRO-MAX
		ALIEN & ALIEN TURBO	1800	PRO-MAX
		ALIEN X	2100	PRO-MAX
DESIGN LOGIC				
(sump mounted)	Lycoming O-360	Standard	220	Any FST Pre-Heater Switch is compatible with Any DESIGN LOGIC pre-heater *
E-Z HEAT				
(sump mounted)	Pre-Heaters for most Lycoming and Continental engines as well as others	Heater Numbers: 154, 156, 270, 360, 440, 441, 442, 470, 540, and 912	Less than 300 Watts	Any FST Pre-Heater Switch is compatible with Any E-Z HEAT pre-heater *
HORNET				
These are un-mounted forced-air heaters	All HORNET heaters can be used as engine Pre-Heaters for enclosed engines or as cabin heaters	HORNET 22	100	Any FST Pre-Heater Switch is compatible with the HORNET heaters listed at left *
		TWIN HORNET 22	200	
		QUAD HORNET 24	400	
		HORNET 36	300	
		TWIN HORNET 36	600	
REIFF				
	4 Cyl	Turbo XP System	600	Any FST Pre-Heater Switch is Compatible with the REIFF Preheaters listed at left *
	6 Cyl	Turbo XP System	800	
	4 Cyl	Turbo System	400	
	6 Cyl	Turbo System	500	
	4 Cyl	Standard System	300	
	6 Cyl	Standard System	400	
	4 Cyl	HotBand XP System	400	
	6 Cyl	HotBand XP System	600	
	4 Cyl	HotBand System	200	
	6 Cyl	HotBand System	300	
	Most Engines	HotStrip System	200	
TANIS				
	4 Cyl Continental, Lycoming	TSP4CYL-2925-115	240	Any FST Pre-Heater Switch is Compatible with the TANIS Preheaters listed at left *
	6 Cyl Continental, Lycoming, Franklin	TSP4CYL-2927-115	460	
	4 Cyl ROTAX 912/914	TSP4CYL-2579-115	240	
	4 CYL Austro AE300	TSP4CYL-3001-115	400	
	6 CYL Jabiru 3300	TAS100-107-DT	280	
	Cessna Skycatcher w/Continental 4 CYL	TSO2884-115	240
